

## **loophouse care and cleaning instructions**

### **Urban pets 100% genuine lambskin**

You have bought a 100% genuine lambskin Urban Pet - they don't need walking or feeding and they won't bite or scratch. The following care instructions will help to keep it in pristine condition.

#### **General maintenance**

We recommend that your lambskin product is returned to loophouse for specialist dry cleaning. Leather is cleaned and softened. Wool is combed and polished.

#### **Occasional cleaning care**

You may remove marks with a damp cloth, using warm water. Do not use excessive water or wool will crimp and revert back to its natural state. Air dry without using direct heat. Comb wool gently.

Caution – DO NOT use biological or phosphate based detergents.

Care is required – results are not guaranteed.

#### **Construction and material**

100% Genuine lambskin
